### Arrival of the W. B. Scranton

### SEVEN DAYS LATER NEWS.

### Walker to be Executed.

### THE WAR IN ITALY.

### THE PRINCE OF WALES

The barkentine W. B. Scranton, Captain Cathcart, arrived on Sunday morning, in 11 days from San Francisco. She brings California dates to the 3d inst. We are indebted to R. C. Pickett, Esq., for files of late papers.

#### California.

A dreadful crime has lately come to light at Reed's Ranch, in Marin county, near San Francisco. A man named Geo. Wilson, while on a spree with some friends, had his clothes saturated with whisky, and was set fire to by one of the company, and burned to death. Warrants are out for the murderers.

The white men in several parts of the State have notified the Chinese to leave certain localities, as they will not work with them.

W. B. Woods, a member of Tiger Engine Co., San Francisco, died Sept. 27th.

The officers attached to H. M. S. Ganges gave a grand ball on board that vessel on the 1st inst. It was largely attended by ladies and gentlemen, who were much pleased with their cordial reception.

#### The States.

The news of Gen. Walker's capture is confirmed by this arrival. He was seized by the British war steamer Icarus, on the 7th ult., and delivered over to the Honduran authorities. His men numbered 80, and were very destitute, and many sick. It is reported that he was sentenced to be hung or shot, with one Col. Rudley. The remainder of his gang will be sent back to the United States.

The success of Lincoln for the Presidency is now regarded as a certainty by the Eastern papers.

The Prince of Wales was expected at St. Louis on the 24th ult. He was at Niagara (American side) at last accounts. Several of his suite were slightly indisposed, but the Prince was in good health and spirits.

John D. Park, the great patent medicine man, has failed.

Gen. Wheat, of filibuster notoriety, has left New York to join Garibaldi.

American gold dollars are being withdrawn from circulation.

The Republicans are sweeping the States in local elections.

A crazy individual declares the world will come to an end at the last of March, 1861.

Sir George Simpson, Governor of the Hudson Bay Company, died recently at Lachine, Canada East.

The Indians have committed several murders recently in New Mexico. U. S. troops will be sent against them.

A great gale has been severely felt along the American shores of the gulf of Mexico. The amount of damage sustained by ships, etc., is said to be \$500,000.

Gen. Joe Lane is stamping Indiana. Douglas was at Syracuse, N. Y., on the 18th ult.

#### Europe.

The news from Europe is to the 8th of September.

The King of Naples has left the capital in a Spanish vessel for Gaeta. Garibaldi was at Cava, 28 miles from Naples, on the 6th

ult., and was expected to reach the capital on the 7th. His advanced guard reached Palermo on the 6th. Naples continued tranquil.

Insurrectionary movements had broken out at Resaco, and the insurgents had attacked and defeated the Papal troops.

An insurrection had broken out at Lafo, where Victor Emmanuel was proclaimed.

Napoleon is reported to have said that his sincere desire is to see Italy free; and that if Austria should attack Garibaldi and prove successful, he should interfere.

The Paris Bourse is dull and drooping; the London money market is easy.

An insurrection had taken place in Beysro. 400 insurgents had attacked and defeated the Papal troops.

#### New Zealand and China.

News received at San Francisco from New Zealand, represent that a great battle had been fought near Auckland, N. Z., between English troops and the savages. The former numbered 1000; the latter, 4000. After a severe struggle, the Europeans took two forts and the natives retired with a loss of 300 killed.

Up to the 26th July, the allies had done nothing in China. The French had left Chefoo in 64 vessels, and the British had sailed from Tael-when in 200 vessels, both bound for the Peiho forts. It is thought they would attack the Chinese on the 1st of Aug.

#### EX-LATE ARRIVALS.

100,000 HAVANA CIGARS, OF THE following Brands, viz:

Verdi Espartores,

Telamico Espartores,

Villa de Gijon Regala Britanica,

## TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

### CORRESPONDENCE,

Communications of general interest to the public, will not be refused insertion in the Colonist on account of differing with the views of the paper, provided that they are brief and to the point.

Tuesday Morning, October 16, 1860.

#### The Legal Bill.

It is rumored, apparently upon good authority, that the Assembly will be prorogued on the first of November. Before that event takes place, we trust the Legal bill to obviate the separation of the profession will become law. As matters stand now, it is a hardship too great to be patiently borne. It is an outrage on the community to make every man who is compelled to go to law, either to prosecute or defend, to employ two lawyers to manage his business, when one, at half the expense, could manage it just as well as two. No argument is wanting to prove the existence of the evil; everybody is convinced of it; they feel it; they know it, and demand an immediate union of the two branches of the legal fraternity, and the repeal of the obnoxious rules of the Supreme Court. The idea of dividing up the profession in a young country like this is simply nothing more nor less than granting a tariff to protect eight men at the expense of the entire community. Such antiquated and erroneous usages, imported from England to pick our pockets, we are heartily sick of. Thirty-four millions of the Anglo-Saxons race manage their affairs, and manage them well, without any separation of solicitors and barristers; and yet we, with little over 3000 inhabitants, must be doubly taxed in appealing to the courts for redress. What is there here that causes such a difference between us and other British colonies and the United States, that we require two lawyers—one to write, the other to talk—on each side of a suit, when one only is required elsewhere? It certainly will not be alleged that two lawyers here are only equal to one in other Anglo-Saxon communities on this continent. This would not be listened to for a moment. Equal talent and equal experience would be claimed here for the profession. They would be held to be as good practitioners as the average elsewhere. Then why should we have our pockets picked to bolster up eight men, and pay one hundred dollars for two retainers, when fifty dollars should and would answer every purpose. The why it is so can only be placed on the ground that a combination exists—a mutual swindlers' society exists—to extract from the industrious a living, without giving a *quid pro quo* in return! Before the Assembly is prorogued we expect, therefore, the enactment of a law repealing the separation of the legal profession, and thus allow solicitors to do barristers' business, and barristers to do solicitors' business as before.

**INDIAN LIQUOR BILL.**—The Assembly, on last Saturday, passed a bill to punish the sale or gift of spirituous liquors to Indians. The bill provides that any person giving or selling liquor to Indians shall, upon conviction for the first offence, pay a fine not exceeding £100; upon conviction for the second offence, a fine of £100, or imprisonment, with or without hard labor, as the magistrate may decide; in case the person so convicted possesses any property, it may be levied upon and sold to liquidate the fine; if there be not enough property to meet the fine, it will be confiscated to the crown. The magistrate may award the informant half of the fine. Search warrants may be issued for the examination of premises, wherein it may be supposed liquor to be kept for the purpose of being supplied to Indians; and no person will be allowed to take up his abode within fifty yards of any Indian reserve or camp, unless specially licensed by the Governor. It was debated by the honorable members whether it would not be as well to flog offenders upon a second conviction; but it was finally decided that the infliction of corporal punishment would hardly answer.

**THE MERCHANTS' LINE.**—The barkentine W. B. Scranton, which arrived on Sunday morning from San Francisco in eleven days, with later news, belongs to the Merchants' Line of vessels, for which Messrs. Pickett & Co. are the agents in this city. The Scranton left San Francisco without any clearance papers or manifest, and we believe the captain gave bonds that all was correct, before he was allowed to discharge the cargo. The Scranton is one of the finest vessels plying between this port and San Francisco, and always makes quick trips.

#### Launch of the Yale Steamboat.

On Saturday last we witnessed the launch of the steamboat built for the Yale Steam Navigation Company, by Scorgie & Laing, shipbuilders at Major Bay. The launch took place at fifteen minutes past one o'clock, and was witnessed by a very few persons, owing to the fact that the state of the tide required the vessel should leave the stocks a quarter of an hour earlier than that announced in the COLONIST of last Saturday. The boat was launched sideways into the water, and was christened by Miss Eleanor Laing the "Idaho," an Indian name, which signifies "Gem of the Mountain." The launch was a highly successful one, and gave entire satisfaction. The "Idaho" is 110 feet long, 22 feet beam, and 4 feet depth of hold; her engines will have two 14-inch cylinders, and 41 feet stroke.

The vessel, from her beautiful model and apparent strength, was much praised by the spectators. Quite a number of persons boarded her after the launch had been effected, and drank to her success from the plentiful supply of Cluquot champagne on board. The Idaho's model is entirely different from that of any other boat launched here this season. Her stern is rounded, and her bow is called "flaring," improvements which it is thought will give her an advantage over all other boats on Fraser River in crossing currents. She will carry about 75 tons freight, and is somewhat smaller than the Maria, belonging to the British Columbia Steam Navigation Company.

The Idaho was built under the immediate supervision of Wm. Kelly, Esq., one of the directors of the Yale Company, and of the designer Mr. James Trahey. These gentlemen have been untiring in their exertions to make the boat what she is—a model of beauty and strength. The Idaho has our best wishes for her success.

On the stocks of the same yard, we noticed another vessel in process of construction. She is from the same model as the Idaho, and about the same size as the steamer Henrietta. On inquiry, we learned that she is being built for Mr. Kelly, who designs running her, when completed, as a barge in connection with the Yale boat during the winter. In the Spring, she will be taken above the cañons, engines placed in her, and run on the Upper Fraser.

#### The Harbor Dues.

During a debate in the House of Assembly last week, relative to the propriety of reducing the harbor dues, the following table was introduced to demonstrate the flourishing state of that department.

1859.	£	s	1860.	£	s
June.	121	10	January.	147	13
July.	130	10	February.	165	05
August.	181	16	March.	189	06
September.	174	12	April.	165	05
October.	173	15	May.	239	17
November.	121	00	June.	196	14
December.	154	03	July.	181	08
			August.	190	04
			September.	169	08
				1642	00
Amount received, 1859.				1088	16
Making a total of.				2739	16

This large amount gives an average revenue of over £160, (\$800) per month, or £1920, (\$9600) per annum. The expenses of the Harbor Master's office are very low—a trifle over £44 per month, or £530 per annum, without including a small amount expended in replacing buoys that may be displaced by passing vessels, or floating off by high tides, and printing. Allowing £100 for the last items, we may say, in round numbers, that the profit derived from the office by the Government is £1300 per annum—quite a snug revenue.

**THE COUNCIL AND THE ASSEMBLY AT LOG-GERHEADS.**—Last Friday, the bill to regulate the sale of spirituous and fermented liquors, which passed the Assembly a short time previous, was sent back to the House from the Legislative Council with the amendment that "the term fermented liquors" should include wines of all kinds. This amendment the House yesterday refused to insert; and returned the bill with a resolution to that effect, with the addition that "the House is of opinion that the adoption of the amendment would be to surrender its most important privileges." This is more spirit than we ever gave the Assembly credit for. It shows that the members are determined their action shall not be stultified by that mysterious conclave, sometimes styled the Upper House, without at least an effort being made to maintain their rights. We are curious to know in what manner the Council will take the rebuff.

**APOLOGY.**—We learn that Dr. Hills has sent an apology to Bishop Demers, for certain remarks in "an occasional paper," respecting the motives of the latter for voting.

William Boardman, of Boston, a merchant whose vessels used to be heard of on the northwest coast long before the conquest of California, is now having a bark of five hundred tons built for the trade of the Amoor river.

**COLONIAL THEATRE.**—On Saturday night there was a perfect jam at the theatre to witness the excellent performances of the Potter Troupe. The comedy of "Rule a Wife" was rendered in admirable style. Miss Lulu, first as the proud and haughty bride, and then as the subdued and loving wife, was frequently applauded, so well did she perform her part. L. F. Beatty, as Duke Aranza, was also in a happy vein, and made several decided hits. The mock Duke (Mr. Potter) was first rate, and kept the audience in a roar of laughter by his witicism. B. S. Mortimer, as Rolando, played well, and came in for his share of praise. The after-piece of "The Weathercock" was well rendered, Miss Lulu, and Messrs. Mortimer, Lane and Potter performing their parts creditably. Last evening, "Don Ceser de Bazan" was given in a very creditable manner. Miss Sweet, as Maritana, charmed the entire audience by her inimitable acting and dancing. Mr. Beatty, as Don Ceser, performed admirably; and Mr. Mortimer, as Don José, and Mr. Potter, as Marquis de Rotondo, are deserving of especial mention. The evenings entertainment closed with the play of the "Two Buzzards." This evening a fine bill is offered—"Faint Heart never won Fair Lady," and "The Young Widow." We hope to see another full house present, as the company are deserving of the warmest support from our citizens.

**COMMERCIAL.**—The Scranton brought news that No. 1 China sugar was held at 10 cenis in San Francisco; and that all other sugars were advancing in price. A sale of 525 mats China No. 1 was effected in our market early yesterday morning at 7 cents per lb.; and 40 mats of the same quality were sold at 30 days credit for 7 1/4 cents. Before night both lots were held firm at 10 1/2 cents per lb. 100 bbls Sandwich Island sugar, ordinary, sold at 8 cents per lb.; and jumped up immediately to 10 1/2 cents. Crushed was held during the day at 15 cents; Jewell & Harrison's lard at 25 cents; and Rio coffee, having gone up to 17 cents per lb. below, was held at 21 cents.

**FIGHT WITH INDIANS.**—On Saturday morning last, before daylight, officers Blake and Welch were sent to the Hydah camp to quell a fight which was going on between the Indians. Arrived there, the officers found some twenty Indians in a state of intoxication, beating each other with sticks, stones, and hatchets. The policemen attempted to quell the disturbance; but the natives assaulted them violently, and compelled them to flee for their lives. Subsequently, however, the officers returned, and with considerable difficulty succeeded in arresting several of the belligerents, and they were punished in the usual manner by the Stipendiary Magistrate.

**POLICE COURT.**—Two or three unimportant cases, unworthy of mention, occupied the time of this Court yesterday morning.

The keel of a new propellor steamboat was laid at Laurel Point, on Saturday.

#### News from the River.

The steamers Wilson G. Hunt and Otter, arrived from New Westminster on Saturday. They brought 174 passengers, and about \$50,000 in gold dust, of which Ballou's Express reports \$20,000, and Jeffray's Express, \$4,500.

Dewdney's new trail from Hope to Similkameen is completed. The valley can be reached in two days on horseback—distance from Hope, 75 miles. The trail is said to be an excellent one.

W. H. Gray, an old resident of Fort Hope, has gone to Similkameen with his family, with the determination of settling there, and go to farming.

W. T. Ballou writes us from Fort Hope that McRoberts, Powers & Co., are getting along fast with their trail from Spuzzem to Boston Bar. No snow has yet fallen on the mountains to amount to anything.—Dewdney's trail from Hope to Similkameen is considered an excellent one.

Messrs. Geo. Landvoigt and Wm. H. Sutton, two of the pioneers at Fort Hope, called upon us yesterday. They give a glowing account of matters at Similkameen.

A good deal of coarse gold is arriving at Fort Hope daily from Rock Creek—several pieces have been exhibited worth from \$6 to \$7 50. Men arrive daily at Hope for provisions, and packing over the new trail has commenced briskly. Marshall, formerly a hotel-keeper at New Westminster, writes to Mr. Sutton that he has set sluices on the South Fork of the Similkameen, and is doing remarkably well. Morgan, a packer, left Hope last week for Rock Creek, over Dewdney's trail, with forty head of mules loaded with merchandise. Dewdney charged him \$3 per head toll. When the trail is accepted, half-a-cent per pound will be charged by government to pay for its construction.

The trail runs through a new pass, lately discovered, and two-thirds of the way there is plenty of grass for animals. A hotel has been built 16 miles from Hope, which will be opened in the spring by Mr. Sutton. Anthracite coal has been struck on the South Fork of the Similkameen. It is said to be the only genuine vein of anthracite on the coast. Mr. Sutton showed us seven ounces of handsome nuggets from Cariboo—some of the pieces weighed from \$16 to \$20 50. They are by far the handsomest specimens we have ever seen from British Columbia.

Mr. Geo. Barnett, late our special correspondent at Similkameen, returned on the Otter. He speaks of the country in the highest terms—both as a gold and a farming region—and will return in the spring. We are indebted to Mr. B. for the following items:

The miners on this river are mostly making preparations for winter, building log houses, etc. About sixty men had determined on stopping at the South Fork.

Those companies who have got to work are doing very well. A party of four men washed nearly ten ounces, the result of one day's work in the bed of the river with sluices. Marshall's claim also continues to pay large wages. It is expected a great deal of money will be taken out during the winter at low water.

A miners' meeting had been called to determine a dispute between two men named Myers and Merritt, with regard to the right of the former to run a tail race through the latter's claim. Their claims are two of the richest which have as yet been discovered.

The new trail from the Forks to Dewdney's trail is now being travelled over and gives general satisfaction. With the exception of six miles, where the trails connect, and which is rather swampy, the whole distance from Hope to the Forks is over a first-rate road. Parties have arrived at Hope in two and a half days from the latter place. Distance seventy-five miles.

The contractors are demanding a toll on all animals passing over the trail whether packed or not.

Provisions still continue high at the Similkameen as it was expected the trail would soon become impassable owing to the snow. Several trains had left Hope and packers are active in getting goods across. A new store had been opened on the South Fork.

#### NEW ADVERTISEMENTS.

### Letter from Bishop Demers.

ENROR BRITISH COLONIST:—I take the liberty to ask for a small place in your paper to vindicate myself, not from the whole pack of slanderous accusations brought against me, I am sorry to say, by the Right Rev. Bishop Hills, but only from two that had escaped my eye till last night, and which are to be found on page 30th of the pamphlet. It is there stated that the foundation of £100 per annum was sufficient for her (*the Church of Rome*) to appoint a Roman Catholic Bishop for Vancouver Island. I owe it to myself and to the Church of Rome, which, though unworthy of it, I represent in this country, to state and bring before the people of Victoria facts, on which for want of proper knowledge, they are not able to pass a fair judgment and do the same justice they have done to the other charges laid at my door. But I indulge in the hope that, after a fair hearing, their good sense and impartiality will pass the same sentence. I should say, in the first place, and assure this community and the people at large, that it is a painful duty for me to appear before them on such matters with a man holding the situation that the Right Rev. Doctor Hills does, not to mention the disadvantage that I labor under with the English language. Now, let us proceed: In the Spring of the year 1843, a clergyman, a countryman of mine, then with me on the Oregon Mission, (which, *en passant*, I feel proud in stating that it had been my lot to come and establish in 1838; paid a passing visit, not to Victoria, as it did not exist yet, but to this Island. It is true that at that time the H. B. Company were making a gratuitous and liberal donation of £100 per annum to the Oregon Mission, and not as a salary to a priest to minister to the Canadian servants of that Company. But then it is seen after the above statement, that there was no mission established here yet, and consequently, the sums of money allowed went totally to the benefit of the Oregon Mission. But what will, in any sensible man's opinion, give the death blow to the statement referred to in the pamphlet, is the fact that the zealous Church of Rome appointed me to this Bishopric in June, 1846, before there was, as there has been none since, any money held out by the H. B. Company as an inducement for her to appoint a bishop for this place. [I refer to the Company's books.] And for the paltry sum too, of £100! a poor inducement, indeed, compared with the thousands of pounds which England's Mission—nay, bishops, are known to have at their disposal. As to my being supported by the propaganda, this is not correct either.

The Propaganda, or the congregation of the Propaganda, as it is usually called, is composed of a certain number of Cardinals, and is a powerful machinery in the Roman system of ecclesiastical operation. It is established to assist the head of the church in its government, in regulating church affairs, in appointing Bishops; but it has nothing to do with the temporal support of missions. They are supported by the association for the propagation of the faith, which is established all over both the old and new continents, on the basis of one cent, the voluntary weekly contribution of Catholics. By this system, funds are raised, but in such quantities as hardly to allow every mission a sufficient support to carry out its object as well as might be desirable, and I am sorry to say that my share is always far below the level of my wants. A few words more. Mr. Eliot, and I have done. Theologically speaking, there is a kind of justice which is called retribution, either punishing or rewarding, according to merits or demerits. In the present case, as I have found fault with the Bishop of Columbia for his uncharitable aspersions on me, so shall I give him credit for his acknowledgment of a vigorous establishment of the Roman Catholic system of religion entrusted to my feeble hands, giving me in this way the trouble of putting him in open contradiction with himself, for he must recollect that when lecturing on his mission before a large meeting in Liverpool, he said that nothing had been done yet for Christianity in these colonies. As to the unchecked growth of the foreign community of Rome, I have only to say that as the Roman Catholic Church, raised from her divine founder Himself the authority over missions to preach to all nations, I do not see why and how she should be called a foreign community, either in this or in any other country; and for this reason; I consider myself no foreigner, no stranger, but as a man, perfectly at home and as loyal a British subject as any. Finally, should the Right Rev. Bishop find my animadversions on him too severe, let him remember that it is said in the Book of Wisdom, 11 and 17, "that by what things a man serveth, by the same also he is tormented."

BISHOP DEMERS.

Victoria, V. I., Oct. 15, 1860.

NAPOLEON I. ON THE INVASION OF ENGLAND.—The First Consul came into the room where I awaited him (says M. de Bourrienne), and addressing me in the most good humoured manner, said, "What do the Parisians say of the preparations I am making for the invasion of England?" "General," I replied, "there is a great difference of opinion on the subject; every one peaks according to his own views. Souchet, for instance, who comes to see me very often, says he has no doubt of its taking place; but many say it will not be attempted. I do not believe it will be attempted." "Who not?" said the General. "Because you told me at Antwerp, five years ago, that you would not risk France on the cast of a die, and the adventure was too hazardous a circumstance; and circumstances have not altered since that time." "You are right," said Bonaparte; "whoever looks forward for the invasion of England are blockheads; they do not see the affair in its right light."

Rumors of another fight between Morrissey and Heenan are becoming rife in sporting circles.

### House of Assembly.

MONDAY, Oct. 15, 1860.

House met at fifteen minutes past three o'clock. Present—Speaker Helmcken, and Messrs. Foster, Gordon, Green, Tolmie, McDonald, Waddington, Cary, Coles.

#### MESSAGE.

The Speaker read a message from the Governor, inclosing the bill to levy a tax on certain trades and professions, and asking the House to insert in the bill the words "Vancouver Island and its dependencies."

#### HARBOR DUES.

Mr. Gordon handed in a report from the committee to inquire into the practicability of reducing the harbor dues, which read as follows: For vessels entering and leaving the ports of Victoria and Esquimalt, all vessels under 15 tons, 4s 2d; between 15 and 30 tons, 6s 3d; between 30 and 50, 8s 4d; 50 to 100, 12s 6d; 100 to 200, 18s 9d; 200 to 300, £1 5s; 300 to 400, £1 13s 4d; 400 to 500, £2 1s 8d; 500 to 600, £2 5s 10d; 600 to 700, £2 10s; 700 to 800, £2 14s 2d; 800 to 900, £2 18s 4d; 900 to 1000, £3 2s 6d; 1000 and upwards, £3 6s 8d; California mail steamers to pay £1 entrance and £1 clearance. All scows to be licensed; those under 10 tons to pay £1 for every quarter, and for every ton above 10 tons, 1s. Wherries and skiffs plying for hire, and licensed to carry not exceeding six passengers, £1 per quarter. Row-boats and yawls plying for hire, and licensed to carry more than six passengers, and under 10 tons burthen, £1 1s 3d per quarter. Land permits—Invoices under £100, 4s 2d; under £250, 6s 3d; under £500, 8s 4d; under £1000, 12s 6d; above £1000, 18s 8d. Any person landing goods without a permit to be liable to a fine not less than £5, nor exceeding £50.

#### CURRENCY.

The Currency bill was read a third time and passed.

#### INDIAN LIQUOR BILL.

The Indian Liquor bill was read a third time and passed.

#### LICQUOR LICENSE BILL.

The House went into committee on the bill to license liquor dealers, which was returned from the Legislative Council with an amendment that "fermented liquors shall mean wines of all kinds."

Mr. Cary did not approve of the alteration of the bill by the Upper House, and offered the following resolution, "that this House is of opinion that the amendment to the act providing for the sale of spirituous and fermented liquors, sent down by the council, is virtually an alteration of the scale of taxation in that Act fixed; and this House is of opinion that the adoption of that amendment would be the surrender of its most important privileges, and must therefore decline to consider the same."

Mr. Foster hoped the resolution would pass, in order that no precedence might be given for other encroachments upon the rights of the House.

The resolution was adopted unanimously.

#### REGISTRATION BILL.

The House went into committee on the bill for the yearly registration of voters.

Sec. 6—providing for the penal punishment of any person making a false declaration as to qualification, was stricken out, and several amendments were made to the bill.

The Committee rose and reported the bill complete, and the House adjourned to Tuesday, at 3, P. M.

#### Memoir of Sir George Simpson

Sir George Simpson, the Governor of the Hudson Bay Company, who recently died at Lachine, Canada East, was a remarkable man. He was born in the mountainous parish of Lochlin, Rossire, Scotland, in or about the year 1796, and was consequently in the neighborhood of sixty-four years of age. When he was very young he was sent to America to take share in the contest then going on between the Hudson's Bay Company, and the unchartered, but extremely energetic Northwest Company of Canada. Owing to his tact, and plausibility of speech and demeanor, he was instrumental in bringing together the two contending parties, and forming a coalition, by which the Northwest Company retained over one-half of the capital stock, and a majority of the offices in the territory for their resident associates. In this situation he showed so much ardor and address, that in a few years he was appointed Governor of what is called the Hudson Bay Company's territories, an office which he held up to the time of his death.

The Hudson's Bay Company was first established, and large tracts of land granted to it, that the nature and resources of the surrounding territories might be inquired into and reported upon to the English Government. But not until 1830 did the company attempt to fulfil the obligations imposed upon them by the charter. In that year the directors of the company instructed Mr. Simpson to make immediate preparations for the equipment of an expedition to connect the discoveries of Capt. Ross and Back. He did so with such forethought, zeal and willingness that the expedition was a perfect success. It was under the conduct of his nephew, the late Thomas Simpson, noted in Arctic discovery. In the midst of difficulties and dangers for the space of three years, the expedition traced the Arctic coast of America, from the mouth of the Mackenzie river to Point Barrow, and from the mouth of the Coppermine river to the Gulf of Boothia. In consideration of the services of the Arctic expedition spoken of above, her Majesty Queen Victoria conferred the honor of knighthood on Governor Simpson, and an annual pension of £100 on his nephew. This honor the Governor received in 1840.—*S. F. Bulletin.*

A man was recently bitten in Pennsylvania by a tame rattlesnake. To prevent the virus from spreading, he drank eleven tumblers of raw whisky, and died soon after. The whisky killed the poison and the man at the same time.

### MARRIED.

At Christ Church, on Tuesday, 9th October, by the Right Rev. the Bishop of Columbia, assisted by the Rev. E. Cridge, Lieut. W. Moriarty, R. N., of H. M. S. Plumper, to Mary Annie, daughter of Capt. J. M. Reed.

Also, at the same time and place, John Coles, Esq., M. P., to Mary Marcus, niece of Capt. J. M. Reed.

## DRUGS &amp; MEDICINES.

**DR. ADOLPHUS'**

**ANTI-RHEUMATIC CORDIAL**

—AND—

**Health Restorative**

**IS THE MOST VALUABLE AND USEFUL**  
I surpassed remedy for Rheumatism and Gout to be found in the world, or known at present. The discoverer of the above medicine does claim its infallibility in all cases of Rheumatism and Gout—which used according to direction—does often recover of five thousand dollars to any individual who takes superseded by the above vegetable. The Doctor is enabled to offer the above reward on account of his having used the above medicine for ten years in his practice, and has never known it to fail in the cure of the most protracted cases of Rheumatism and Gout, and without all known remedies to the profession. Doctor Adolphus is known and rightly celebrated throughout the State, for his cures in Rheumatism, Gout and Chronic Diseases, and has only to the continual urgent efforts of his patients and through the desire to help them who are not enabled to see him personally, or to spend a few dollars to get rid of the disease, which they have contracted, for the pursuit of their daily calling; only this has been able to persuade the Doctor to give the above medicine to the public, and at such terms, that every suffering one should be able to reap its benefits.

As a Health Restorative its value supersedes all the mineral wealth and riches of California; and is creating a revolution in the whole treatment of disease throughout the world.

In secondary and tertiary Syphilis, Scrofula, Enlargement of the Glands, Dropsey, and all Neural and Cutaneous Diseases, and the whole tribe of Chronic Diseases, which withstanding the skill of the most excellent and learned physician in the world; in many Diseases whose very name is a terror as well to the physician as to the patient, this medicine has proved to be superior to any in existence, and has cured in so short a time that they appeared like being abolished by magic influence; and in fact a few more such discoveries and drugists will not need to keep a lot of useless medicines on hand, whenever they are prescribed once in a ten score they have lost through time their properties in which their value did reside, if there was actually any in them.

Take this medicine when your digestive organs are disordered and your blood is impure, it will surely act on your glands.

Take this medicine when your urinary and absorbing organs are disordered, and it will act on your kidneys—it penetrates every part of your body, seizes even the most remote and secret recesses of your system, and removes the disease located there; it restores healthy action and gives tone to every organ in the human body—therefore it has righteously deserved the name it bears: **HEALTH RESTORATIVE.**

The Doctor, who is averse to all patent medicines, wishes it to be understood that the above medicine is no such thing, but that he has, through the introduction of this medicine with its treatments and directions for use, made every sufferer to be his own physician in the above named diseases.

In thinking about my dignity to follow the mode of quacks, by appending certificates of physicians or private persons, which is too well known can be had for certain remunerations, applications of friends, or by the mode of boring a man half to death for even the most worthless trash, I will therefore give it to those in want of medicine to whom especially of men who have been cured to make certificates of the above disease, and who can be found in almost every city and village throughout the State. I consider such personal conviction far superior to certificates of persons that are far from being known to them in respect of medical aid.

But should any one care for written testimonials or certificates regarding the cures performed by this medicine, they might call at my office, and I will show them certificates of true merit, which have been sent to me voluntarily, without applying for them, or by boring individuals to get them.

To satisfy the most scrupulous of men, also as a guarantee to those that have not had the opportunity of knowing the Doctor's reputation personally, I have adjointed to every bottle of the Anti-Rheumatic Cordial a certificate, under oath, of one of the most celebrated analytical chemists in the United States, that there are no minerals nor poisons contained in this medicine, although it is a very powerful medicine, and has a very strong action on the human system, which it necessarily must have, to overcome the action of disease of such malignant character.
